### Relevant Experience

#### Amazon / UX Research Intern

June 2021 – Present / Bellevue, WA

Independently led and conducted research into insight management for the Transportation and Recipient Experience organization. Assembled an onboarding plan for a centralized research management system, minimizing cost and improving research efficiency.

Collaborated on the research into the 'Relay for Drivers' application used by Amazon drivers, assisting interviews and compiling findings for an improved user experience.

#### Brite. / UX Design Intern

March – June 2021 / Seattle, WA

Developed user flows, wireframes, interactive prototypes, and digital assets for Brite., a Seattle-based startup developing coding software for teens. My prototypes were utilized by developers to create key platform screens and features, enhancing the customer experience.

#### Posthuman Research / Student Researcher

September – December 2021 / UW, Seattle, WA

Collaborated with researchers to devise design initiatives for potential cataclysmic climate events focusing on disadvantaged groups.

### Education

#### University of Washington / BS

Human Centered Design & Engineering

2018 - June 2022 / Seattle, WA

A Bachelor of Science degree in HCDE in the school of Engineering with a focus on Human-Computer Interactions. Acquired skills in UX research, UX design, product design, data processing, and programming.

Current GPA: 3.78 (In-Major: 3.98)
